OASIS COVID-19 SHARED EXCURSIONS PROTOCOL

A thorough disinfection will be done before the excursion.

BEFORE THE EXCURSION

As currently indicated by the authorities, clients must arrive on board with a mask. Users must make mandatory use of the mask, except when, being on the covers or outside spaces, it is possible to guarantee the maintenance of an interpersonal safety distance of at least one and a half meters.

To show the vouchers to the person from the company who will assist them at boarding, customers will queue between them, maintaining a minimum safety distance of 1.5 meters between them.

In the access on board they will have disinfectant hand gel.

Once all the clients are on board and we release the moorings, the crew will give a speech on the development of the excursion and the safety of navigation and health on board.

At anchor, food will be served at a central table. The clients will approach the table in the order indicated by the crew, they will proceed to disinfect their hands and take the authorized trays and cutlery. They will ask for the drink at the bar counter and there will be a person in charge of serving them the food.

DURING THE EXCURSION

Clients will have disinfectant gel on board at all times and the common areas will be disinfected by the crew as many times as necessary.

At the time of disembarking in port, customers must do so in an orderly manner and always maintaining a safe distance.

AFTER THE EXCURSION

Once the excursion is finished, we will proceed to clean and disinfect the boat.
